

DirectPension comfort+

Up and running!
The company pension
with a portfolio managed
automatically.

Convenient
and highly
efficient

In cooperation with your employer, you can set up a company pension plan which promises attractive returns and a lifelong pension in the form of DirectPension **comfort+**. Part of the contributions saved up will be invested in a managed portfolio. **Thus, you and your employer will take advantage of the return opportunities offered by the capital markets.**

Opportunities and security

- Part of your credit balance will be invested in a managed portfolio. This will create return opportunities. The other part will be invested in the guarantee assets of Stuttgarter, thus ensuring your 80% contribution guarantee.
- The integrated auto-lock-in system will automatically secure your gains once a year. This will additionally increase your guarantee.

Managed portfolio

- Your managed portfolio will largely consist of low-cost index funds.
- Over the entire term of the contract, your managed portfolio will be constantly reviewed and automatically adjusted to your risk profile, free of charge.

Individual tailoring

- You will stay flexible if your circumstances should change.
- You can, for example, increase contributions, suspend payments or top up your contract credit balance with extra payments.
- At the start of retirement, you can decide whether to opt for a lifelong pension, a lump-sum payment or a combination of the two.
